TIENNA, Austria, July 18 -- A wedding whose guests numbered over 8000 persons and whose feasting one of those remote country districts of Austria-Hungary where mammoth wedding festivities on a scale ut-terly unknown in America or western Europe are the rule. The affair at Sadagora exceeded in

Sadagora enjoys a certain fame in eastern Europe as the seat of the in eastern Europe as the sent of the renowned Rabbinical dynasty known as the Miracle Rabbin. The bride was the daughter of the grand rabbi of this line. Area Freidmann, and the groom. Salamon Friedmann, belongs to a branch of the same Rabbinical dynasty at Caortkow. The marriage was arranged by the chiefe of the two families, entreity without the knowledge of the young people. In fact, they met for the first time only the cevaning before the wedding at a preliminary feast, when they danced together as a sign of their willingness to marry.

The ceremony took place in the gardens of the grand rabbis paiace, guarded by mounted troops. Thousands were unable to hear or see what was going on, so dense was the throng, but all had a hand in the feasting which followed. During the eight days the commissary's books accounted for 200 pounds of fish, 500 head of poultry, 250 pounds of beef. 2000 pounds of bread and many casks of wine. The grand rabbi was out of pocket to the extent of at least \$40,000.

In addition to this he presented the bridal couple with a palace in Sadagora, completely furnished and equipped with a staff of servants. France Puls the Ban on Cigaret Lighter and Has Arrested Many Tourists

Paris, France, July 15.-The French excise authorities continue their vigorous campaign against the automatipipe and cigaret lighter. A force pipe and cigaret lighter. A force of plain cicthes detectives has been engaged to carry out this work, so if you are thinking of visiting this gay city leave your automatic lighter at home, and be prepared to nearly polson yourself by using matches supplied at a price by the state. "L'allumette" in France is a sulphurous article of the changes possible variety and if you attempt to light a citaret immediately you have ignited the flame—woe bestide you.

During the last two weeks hundreds of smokers have been accosted by detectives and peremptorily ordered to the police station. In all cases where automatic lighters or imported matches were found on the suspect summonses have been issued and small fines imposed. One tourist from Memphis was soured to death this week when a detective called up a couple of gendarmes and took him to the court just behind the Rue de la Paix. Visions of incarceration in the French jail obliterated all memories of a glorious holiday, but the inspector was a human sort of individual and the confiscation of the Memphisian's British matchbox and contents was the extent of the penalty.

RULERS GATHER TO WITNESS WAR GAME

By PREDERICK WERNER. ERLIN, Germany, July 18.—It is an utterly erroneous idea which continued for eight days was cele-brated recently at Sadagora in Buko- and emperors always have plenty of money. Only a few days ago the gainer had to admit that he had not

money. Only a few days ago the kaiser had to admit that he had not a single cent in his pockets when rackled by a beys of pretty girls selling trinkets on behalf of the Red Cross society. It was a rather embarrassing situation for the girls, and they, saily lacking in enterprise, neglected to offer his imperial majesty a month's credit. But the klaser came to the rescue by borrowing money from willing lenders in his staff and one carnation cost him \$2.50.

At the moment the kalser is enjoying his summer vacation which began with Kiel week. He will return to Swinemunde early in Angust to prepare for the greatest war game ever played in Germany. This has been called the "kaiser maneuvers," and when the German army, or a very hig part of it, assembles in the Tanus valley the third week in September they will operate under the eyes of four kings and a kingtabe. These include the kings of Greece and the crown prince Rupprecht of Bavaria.

More than 200,000 men with a corresponding force of horses, guns, airahpa and aeroplanes will wage four days' warfare round Bad Homburg, which will be the maneuvers' head-querters.
